'The Star of Bethlehem'

A THIRTEENTH CENTURY MIRACLE PLAY.

Professor Gale says, "It should be read in every college and known by every gentleman today. It stands out English and alone, with its homely wisdom and indigenous figures—Mak and Gyll and the shepherds—its comic business, its glow, its sometimes subtle irony, its ludicrous colloquies, its draft of rural manners and morals, its naive and wholesome reverence."

To be presented by the students of the Junior and Senior Classes of the Punahou Academy on the night of December 4, on the Punahou Campus.

Tickets are in the hands of Punahou students. Admission, 75 cents.

'READY MONEY' WILL BE GIVEN BY 'ALL STARS' AT BIJOU TONIGHT

George Webb, who essays the role of Stephen Baird in "Ready Money," the offering at the Bijou theater tonight.

The players of the All-Star Company will present "Ready Money" at the Bijou theater tonight. "Ready Money" tells of the trials and peripatetics of Stephen Baird, a young mine owner who, on New Year's eve, finds himself possessed of just 25 cents in ready cash. Two days later he has a large payment to make to free his mine from a mortgage. His inability to raise the money by the sale of stock in his mine and the lack of money in his pocket prompt him to absent himself from the New Year's festivities that his friends are celebrating. Against the strong opposition of a haughty and worldly mother, his sweetheart, Grace Tyler, proves by her loyalty what the love of a good woman means to a man.

Among the 17 roles in the play is a counterfeiter, Jackson Ives, a polished man of the world and an international character, and a secret service agent who makes things lively for Stephen because of his supposed business connection with Ives. How Stephen overcomes the prejudices of the mother and wins his sweetheart—how the mine is saved and turns out to be rich in gold, is all told in the most exciting and amusing manner possible.

The queen of England saw the play twice and said: "The nicest love story I have ever seen on the stage." George Webb will be seen as Stephen Baird, Guy Hittner as Jackson Ives and Miss Florence Oakley as Stephen's sweetheart, Grace Tyler. Each member of the All-Star Company will be seen in an excellent part.

FORD DECLARES TRAINED GUIDES BADLY NEEDED

Accompanied by two visiting members of the Mountaineer Club of Seattle, the Trail and Mountain Club party which set out to explore the fastness of Oahu's seashore succeeded in getting lost yesterday between Barber's Point and the Ewa mts, spending most of the day tramping and finally reaching the latter point late last night. They reached their homes in the city about 11 o'clock.

Nevertheless the trip was voted a most successful one, being highly entertaining, and enjoyed by the feminine "hikers" equally as well as by their sturdy male escorts. One woman even said she had gained 13 pounds in weight as a result of these excursions and that she would not miss them, for anything. Yesterday's experience was one of the most thrilling the club's members have had to date.

"Yesterday was the first of our outings sent without one of the members of the Ad Club tourist committee in charge," said A. H. Ford to the Star-Bulletin this morning. "It was done as an experiment, and has splendidly proved our contention that what is now urgently needed is a corps of cadets educated to know every foot of the islands so that they may safely and carefully conduct parties without any chance of losing anyone. Two weeks ago it took one of our committee more than an hour to find three strayed couples who wandered miles away and never once left the main road. In other Pacific lands conducting tourists and home excursionists has become a profession and men are educated for this more carefully almost than for any other ordinary profession. Our Ad Club tourist committee which meets tomorrow to probably merge itself into the outdoor committee and home tourist bureau of the Promotion Committee is already selecting the corps of workers it absolutely needs, some of these having already been introduced to members of the Promotion Committee. It is going to be a long, but thrilling, experience training the corps of young men in modern tourist bureau methods, but

MAINLANDERS AFTER JOBS IN HAWAII NEI

That many mainlanders are desirous of obtaining positions in Honolulu, or in other parts of the Hawaiian Islands, is the gist of a communication which has been received by the Promotion Committee from A. P. Taylor, its San Francisco representative.

In part the letters follows: "Inquiries today were made from many sources: Two stenographers, one male and one female, inquired about prospects; a professional singing teacher made inquiries and will probably take a chance and go over soon; a maker of rubber heels secured

DON'T PUT STICKERS ON NEWSPAPER DAY WRAPPERS

The postoffice has given notice that the Carnival Stickers placed on the Newspaper Day wrappers or any other second-class mail subjects such mail to an additional two cents postage. On account of this mail bearing these stamps it has been held at the postoffice for additional postage.

LOWER PRICES ANNOUNCED AT THE POPULAR

Following the termination of the engagement of the Jansen-Duncan combination next Saturday night, Samuel Blair of the Popular theater announces a number of surprises in the way of big feature films, not the least of which will be "Victory," which will be the offering for next Monday.

With the return of Blair's Greater Photo Plays to this theater there will be at least two features shown each week, with a special ladies' and children's matinee daily, the bills to be changed each Monday and Thursday. "Victory," which is heralded as the "world's greatest spectacular war drama," was produced with the aid and permission of the United States navy, and includes in its cast such naval notables as Secretary of the Navy Josephus Daniels, Rear-admiral Badger, commanding the Atlantic fleet and prominent several months ago when it became necessary for Uncle Sam to intervene in Mexico and occupy Vera Cruz; also Capt. Benson of the U. S. S. Utah.

Throughout this entire film love and war are blended in such a manner as to incite the interest of the most exacting and to retain that interest from initial to final scene. Battles on sea and land are vividly depicted, while the hydroplane as a modern instrument of warfare is shown to good advantage.

A reduction of prices for the remainder of the visit of the combination vaudeville offering is announced for the present week, and many laughable stunts are promised in the hypnotic act, while the "black art" includes many feats that are bewildering in the extreme.

A list of houses handling goods and later will go; a manufacturer of stickers was in again and probably will go to Honolulu in December; five other businessmen were in making inquiries, each saying they might go over.
